DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 to 17, drawn to a cooling roll for manufacturing a ribbon shaped magnetic material, classified in class 492, subclass 28
 - II. Claims 18 to 27, drawn to a ribbon shaped magnetic material, a powder made from said ribbon shaped material and a bonded magnet made from said powder, classified in class 252, subclass 62.55.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as apparatus and product made. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be as claimed can be made by another and materially different apparatus such as for example a melt spinning apparatus wherein there is not gas used nor gas expelling structure on the circumference of the surface.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 1742

4. A telephone call was made to Mr. Bryant E. Wade on May 24, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
